

Air Quality Conformity Codes

The conformity column in the project listing includes a code identifying each project's status regarding air quality conformity analysis. If a project is considered emissions neutral, it is exempt from air quality analysis. Exempt projects are identified with a number code in the conformity column indicating that exemption category. Projects which are not exempt are identified by an asterisk (*) indicating that emissions testing is required. Exempt project conformity codes are shown in the following table.

Clean Air-Neutral Projects

Exempt from Conformity Analysis

- 1 Railroad/highway crossing
- 2 Pavement marking demonstration
- 3 Hazard elimination program
- 4 Safer off-system roads (non-Federal-aid system)
- 5 Emergency relief (23 USC 125)
- 6 Intersection channelization projects
- 7 Shoulder Improvements
- 8 Truck size and weight inspection stations
- 9 Safety improvement program
- 10 Intersection
- 11 Railroad/highway crossing warning devices
- 12 Changes in vertical and horizontal alignment
- 13 Increasing sight distance
- 14 Guardrails, median barriers, crash cushions
- 15 Pavement resurfacing and/or rehabilitation
- 16 Widening narrow pavements or reconstructing bridges (less than one travel lane)
- 17 Noise attenuation
- 18 Fencing
- 19 Skid treatments

- 20 Safety roadside rest areas
- 21 Other traffic control devices
- 22 Truck climbing lanes
- 23 Lighting improvements
- 24 Adding medians
- 25 Feasibility Study-will perform air quality analysis once recommendations
have been made.
- 26 Enhancement Project
- 27 Environmental Impact Statement
- 28 Bridge Inspection
- 29 National Recreational Trail
- 30 Transit Projects
- 31 Bridge Replacement
- 32 Adding turn lanes
- 33 Slide correction
- 34 Sign renovation
- 35 Bridge renovation
- 36 Park and Ride
- * Clean Air Analysis Required
